Model Name	Anker Nano Power Bank(30W, Built-In USB-C Cable)
PN	A1259
Available Color	
Product Dimensions	104 x 52.3 x 26mm (4.1 x 2.1 x 1.0in)
Cell Capacity	10,000mAh
Input	USB-C Cable: 30W Max (5V=3A / 9V=3A / 15V=2A / 20V=1.5A) USB-C: 30W Max (5V=3A / 9V=3A / 15V=2A / 20V=1.5A)
Output	USB-C Cable: 30W Max (5V=3A / 9V=3A / 10V=2.25A / 12V=2.5A / 15V=2A / 20V=1.5A) USB-C: 30W Max (5V=3A / 9V=3A / 10V=2.25A / 12V=2.5A / 15V=2A / 20V=1.5A) USB-A: 22.5W Max (5V=3A / 9V=2A / 10V=2.25A / 12V=1.5A / 15V=2A)
Total Wattage	24W Max
Certified	Anker Eco Product**, CE, UKCA, Recycle, WEEE, BC, PSE, PAP 21, RCM, UL EnergyVerified, Triman, FSC, Printed with Soy Ink
What you will get	Anker Nano Power Bank(30W, Built-In USB-C Cable)
	Our worry-free 24-month warranty
	Friendly customer service

ONE SENTENCE INTRODUCTION

This is a lightweight, palm-sized power bank that equipped with a built-in USB-C cable streamlines charging for hundreds of smartphones and smart devices. The 10,000mAh battery capacity is perfect for your short or long trips, outdoors, working places. You no longer need to worry about out of charge circumstances.

FREQUENTLY ASKED QUESTIONS

What is Anker Nano stand for?

Anker Nano is the latest colorful, compact, and more compatible than ever lineup. It includes range of products like Power banks, Chargers and Cables. This power bank is one of the product in the range.

Who and when is recommended to use this power bank?

This power bank is the perfect gadget for those who are tired of bulky power banks, taking extra charging cables along side all the time, worrying about charging process. This lightweight, palm-sized, LCD screen intelligent power bank with built-in USB-C cable should be good to go.

Why the same power banks on the market are not as good as yours?

Firstly, the power bank supports up to 30W PD fast charging, compatible with tablet, mobile phone charging. Charge your iPhone 3X Faster compares with the 5W charger. The built-in USB-C cable could also support 30W, you no longer need to carry extra charging cable and enjoy the fast charging speed.

Moreover, compares with the similar product in the market, this power bank equipped with a LCD smart display that not only displays the remaining power but also the remaining usable time.

Most importantly, the product casing is made from 80% Post Consumer Recycling material and has obtained UL 2710 certification. This is Anker's tangible commitment to driving the green transition in the consumer electronics industry, serving as a pioneer and advocate for industry standards.

As you may know, Anker has a reputation for being reliable and top notch quality. So go ahead, grab this compact yet powerful intelligent power bank.

How many times will I be able to fully charge my devices when the power bank is fully powered?

With a large 10,000mAh battery pack, it can charge most phones almost two times and an Apple iPad from 0 to almost 60% on a single charge.

Does this power bank get hot when charging my device like other products? Is it **safe** to use?

You can trust our power bank. It uses ActiveShield™ 2.0 technology. Compared to the first-generation ActiveShield safety technology, ActiveShield™ 2.0 technology has increased the frequency of temperature control detection, monitoring temperature up to **three million times** per day. So you can use it with ease of mind.

Can I use it to charge my laptop?

Yes. This power bank is equipped 30W max output and compatible with MacBook Air Series.

How long does it take to fully charge this power bank?

With a 30W total input power, to fully charges the power bank takes only one and half hours.
