## MERCURY-DX-362IR 2.7-12mm Lens 1080P

### Ultra Low Light SensorUltra Sensor

The Mercury DX range, incorporates an ultra-low light camera module based on a SONY® STARVIS™ IMX462 sensor that ensures superior near-infrared performance offering colour images in very low light conditions.

### 2.7-12mm Motorised Lens

The Mercury DX362 comes with a new motorised 2.7-12mm lens offering a larger range of scene capturing capabilities making this camera suitable for even more applications. The remote zoom and focus feature enables convenient focusing over the network together with the special P-Iris lens, eliminating the need for hands-on fine tuning. This remote adjustment functionality greatly speeds up installation time and reduces total cost to the project.

### HDR Engine Gen3

The latest HDR engine delivers excellent, natural high dynamic images. Both details of high light and low light areas are kept, and no blending artifacts are generated.

## Specifications
