GAS 35 /55 wet filter bag

Bosch 2 607 432 039 vacuum accessory/supply Dust bag:

The wet filter bag is ideal for working in wet environments. In contrast to the fleece filter bag, the wet filter bag lets the liquid through. This means that solid dirt particles stay in the wet filter bag, while liquids flow into the container. This makes it easier to empty and dispose of the extracted materials and liquids.

The wet filter bag is certified for dust class L.
