- The premise is simple: the 3Doodler Start pen draws with a heated ECO-cartridge, which makes it possible to build 3D objects in the same way as a 3D printer, but without creating computer models
 - The plastic that comes out of 3Doodler Start + is warm, but not hot. Therefore, after the insert slides out, the child can safely shape it with his hands
 - 3Doodler Start + and the attached ECO-inserts have been specially designed to be completely safe for children
 - Eco-cartridges for 3Doodler Start + are made of safe, non-toxic, BPA-free and completely biodegradable materials
 - When fully charged, 3Doodler Start + will work wirelessly for 45-60 minutes. Of course, you can still use it while it's connected to power
- 3Doodler Start Plus ballpoint pen for children from 6 years old, Basic set SPLUS
